# WIA - The Project

Explained

The Project

- You will build a website for a company (Made up or Real, with permission)

- Must have the following:

  - A homepage

  - Have at least two uses of jQuery effects

  - Check for features with Modernizr and provide fallback content for legacy browsers

  - Real content is need, Lorem Epsum, will not be accepted.

Web Interaction
&Animation

The Project

- Must have at least **4 of 5** the following:

    - An Animated Bar Chart or Interactive Data Visualization

    - An Interactive Map

    - An Interactive Image Gallery

    - At least one use of the HTML5 Video and/or Audio tags

    - 2 Uses of the HTML5 Canvas tag

&Animation

The Project

- ◉ Design will count!

  - This means make it look professional.

- ◉ Follow the rubric, this is what I will be using to grade it.

- ◉ We will be covering animated maps and timelines in our next class.

- ◉ Get started on your design and basic layout today.

Artwork & Media

- You will be responsible for the artwork for your site.

  - DO Create it yourself

  - DO Use royalty free images and video

  - DO NOT use anything that you do not own the rights to

- Sound effects (if you need any)

 - You can use WestStar on the Library sites

Web Interaction
&Animation

Explanation

- Create a PDF that explains your design

- Briefly explain the company that you chose and how your design works for this company

- Talk about where each of the listed criteria is in your website

Web Interaction &Animation

Turning It In

- Upload a zipped file named :
  `last_first_WIA_The_Project.zip`

- This should also be in your GitHub account
